

Plate for electronic rotary mechanisms white Simon 75

REF. 75054-30

BASIC INFORMATION

DESCRIPTION

Available in 6 finishes, and from the Simon 75 series, we present this 500W plate for electronic rotating mechanisms. Specifically this reference is white, but it is also available in ivory, bronze, grey, matt aluminium and graphite. In total, a selection of 6 subtle and elegant finishes that give each space a touch of elegance and distinction. Once selected, it is recommended that the frame has the same baseboard colour as the chosen cover. It is made of thermoplastic and for a proper cleaning of this material it is recommended to use a soft cloth moistened in soapy water. To perform the installation correctly, it is necessary to use a universal box recessed. If it is not available, use a surface-mounted baseboard. Simon 75 offers a wide variety of functions that provide comfort and security to each space, taking care of the needs of the current consumer.
