Front kit for 1 element with 1 German socket outlet Simon iO matt white Simon 100

REF. **10021108-230**

BASIC INFORMATION

DESCRIPTION

Front kit designed to occupy 1 element that has 1 Schuko Simon iO socket base made of matte white from the Simon 100 range. It can be installed both vertically and horizontally.

This kit occupies 1 element and being from the 100 range of Simon it is compatible with the rest of the firm's mechanisms. It is a standard type product that can be marketed in the EC and has been made based on current regulations.

As for its cleaning, it is advisable to use a soft cloth dampened slightly in soapy water and carry out periodic maintenance. It is important to avoid the use of cleaners of a thick texture, in addition products that contain chlorine or other corrosive substances that damage the appearance of the same should be avoided, this is to increase the durability of the material on the surface of the product.

For proper maintenance of the device, a temperature range must be preserved that must be between 5° C and 40° to operate, and is even capable of withstanding ranges of -25° C and 50° C in storage.

FINISH

Matt white
