

Voice and data flat plate without dust cover for 1 element for 1 3M® RJ45 connector white Simon K45

REF. KA045/9

BASIC INFORMATION

DESCRIPTION

In graphite colour, we have this plate of voice and data flat plate, of the series Simon K45, without dust cover, an element and suitable for RJ45 connector 3M. This is the individual version of the plate, but is available for one or two connectors. The depth of the plate is 8.5 mm and its dimensions are 45x45 mm. By, it is a product compact and easy handling. It is made from a material insulating thermoplastically, for which have been circumvented the halogens, guaranteeing the minimum toxicity in case of smoke to high temperatures. It can be installed in two ways: Recessed or surface-mounted. The temperature range that can withstand this plate of voice and data is very wide, specifically between -5 and + 60 degrees centigrade. To clean it you just need to use a trapito of cotton clean dry cloth, in any case, you must use aggressive cleaning products that have chlorine or other chemical.

FINISH

White
