Front kit for 3 elements with 2 German socket outlets and 1 single R/TV+SAT socket with 1 RJ45 connector matt black Simon 100

REF. **10020303-238**

BASIC INFORMATION

DESCRIPTION

Front kit for 3 elements with 2 Schuko plug bases and 1 single R-TV + SAT socket with 1 matte black RJ45 connector. It has the capacity to occupy 3 elements, being a standard product of Simon's 100 range and compatible with the rest of mechanisms of the same series.

This product is finished in an elegant, but modern, matte black, which also serves as a rather subtle, but effective decorative element.

Its sense of installation is vertical, although it can also be horizontal, allowing it to be located in diverse areas, beyond the space available for it. The content of its packaging consists of a cover and keys.

For its maintenance, a damp cloth with some water and soap should be used and products containing chemicals should be avoided in order to promote its durability and appearance.

To perform a correct maintenance of the device, a temperature range of 5º C to 40º C must be maintained for proper operation and the temperature range for storage must range between -25º C and 50º C.

This kit complies with directive 2014/35/UE LVD + directive 2011/65/UE RoHS + EN 50581: 2012 + EN 60669-1: 1999 + EN 60669-1: 1999 A1: 2002 + EN 60669-1: 1999 A2: 2008.

FINISH

Matt black
