

Single-pole switch 10AX 250V~ with fast terminal connection system decorative brown Simon 31

REF. 31101-36

BASIC INFORMATION

DESCRIPTION

This single-pole switch is part of the Simon 31 series. It is suitable for elements of up to 10A of intensity and 250 volts. It is quick terminal connection and its dimensions are 64 x 65 millimetres. The switch is made up of two modules and is very easy to install. Simon products stand out for its functionality with the appearance. In this sense, are designed in a great variety of finishes, colors and combinations, always looking for a harmony appearance with the place where it is to locate. This product comes in an original brown, which makes it ideal for rooms with similar decorative style. It is original and is converted to the centre of all the glances by its modernity. This product is available in five finishes, so it is recommended to choose the frame with the same colour of the selected rocker. The quality of its materials of manufacture, which are metal components with halogen-free insulation and thermoplastic trim metal finish, make this switch ensures optimum performance in conditions with high temperatures or very low. The reason are the features of its materials, which provide great resistance.
