

## Double rocker for switches graphite Simon 82

REF. 82026-38

## BASIC INFORMATION

### DESCRIPTION

The double rocker for Simon 82 graphite control mechanisms allows you to optimise space with the highest performance in its range. Modern design with innovative materials results in a series of elements stylish and efficiently. A wide range to match in any space. Manufactured in thermoplastic material, it offers the best guarantees. Its simple and safe installation and its innovative line make it a perfect solution for all types of rooms. Details can turn a space into something special and unique. For this reason, this series seeks to transform functional elements in parts of design that is integrated into all types of interiors. The double rocker for switches in the Simon 82 range is made of thermoplastic material which guarantees its durability and resistance. It has six finishes and colours that fit with the rest of the elements of the series to offer the best combining appearance to each space.
