

Single rocker for switches brown Simon 88

REF. 88010-32

BASIC INFORMATION

DESCRIPTION

The products included in the catalogue of 88 series of Simon are among the most chosen at the time of purchase accessories for electrical and electronic systems installed in private homes, commercial premises and the headquarters of companies by the reliability and security that provide to the same. Within this range we can purchase the individual Rocker for control mechanisms brown in colour, although it is also available in three finishes. Its resistance to impacts, knocks, scratches and the colour of the thermoset components with which its structure has been manufactured, making it the accessory ideal for installation in those buildings whose mechanisms are used on many occasions throughout the day, such as hospitals, schools, colleges and universities, hotels or headquarters of offices. This piece has dimensions are Ø 68.3 mm and has an unbeatable price.
