

Trim frame for 2 elements mint Simon 27

REF. 27966-32

BASIC INFORMATION

DESCRIPTION

This trim frame is part of the Simon 27 series and is suitable for mechanisms that supplied energy to a total of 2 elements or electrical equipment. The frames Simon are designed to meet a protective function of the mechanism and also to be fully in the room where it is placed, passing to be a decorative element. For this reason, there are many varieties, finishes of colour and combinations. In this case, the frame has a beautiful and original mint colour that will give a touch of modernity to the place where it is. The frame has dimensions of 161 x 90 millimetres and is designed to be installed with ease theoretically. In this sense, the product is made up of four modules and is suitable for recessed and allows the option to be placed vertically or horizontally. The material of which it is made, the frame is thermoplastic, which gives resistance to the product extending its service life.
