

T connector with RH inside earth

REF. 89911130-039

BASIC INFORMATION

DESCRIPTION

In 1916 in Olot inspires one of the Spanish companies in the manufacture of small electrical products. A hard work of several generations workers to create a high quality products, for Simon investment in research and development is a priority which allows you to offer solutions to a company in constant evolution. A clear example of this is the evolution lighting system LED. A real revolution that, as it is suitable for all types of pockets thanks to Simon products. To be able to perform a light installation is very simple thanks to the great quantity (QTY.) accessories available for the three-phase rails, this piece is a connector with a T with ground connection on the right specially designed for interiors. This product has a finish is white in colour and is also available in graphite. The connector will allow us to increase, reduce or move the light points of a comfortable way.
