Voice and data flat plate with dust cover for 1 element for 2 RJ45 compatible other manufacturers black Simon K45

REF. **KB76/14**

BASIC INFORMATION

DESCRIPTION

This plate of voice and data plate is of the series Simon K45. It incorporates a dust shutter and has an element for two RJ45 connectors. One of its main features is that it is compatible with other manufacturers. This plate Simon is committed to an innovative design, with black grey finish. The availability of this plate of voice and data plate is for one or two connectors. It can be installed in two ways (recessed or on a surface-mounted). In case you want to combine in any enclosure you have to use the 90 ° positioner (ref. K66). The compact design is what due both to the innovative materials and its small size (45x45 mm and a depth of 8.5 mm). It is manufactured with thermoplastic components, which support the high temperatures, and are halogen-free, to guarantee the security in its use. The maintenance of the series Simon K45 is very simple, you simply have to use a soft and dry cloth to clean them.
