Double rocker for switches white Simon 75

REF. **75026-30**

BASIC INFORMATION

DESCRIPTION

White in colour, we have this double rocker for control mechanisms, is part of the Simon 75 series and has 6 different finishes, to achieve a harmonious set, it is recommended to choose a frame with the same colour as the selected rocker. It can be easily installed by surface mounting or flush mounting. The most common temperature ranges of the double rocker with light symbol are 5 to 40º with a limit ranging from -25 to 50º. This type of rocker applies the regulation UNE-EN 60669-1: 2002 + A1: 2003 + A2: 2009. The main manufacturing material is thermostable with a white plastic finish. The rocker with light symbol is a double version, it does not contain modules, but an element. This model includes light symbol but does not include signaling function. It is recommended for the correct maintenance of the double rocker for mechanisms to use a soft cloth slightly moistened in soapy water to clean it properly.
