Key for dimmer gloss black Simon 100

REF. **10001020-138**

BASIC INFORMATION

DESCRIPTION

The Simon 100 series is a revolutionary line in terms of usability, appearance and technical innovation, because it is the first pulse-driven interface to be operated by hand in the simplest way. Among the best-selling items in this range is the black quartz effect adjustable switch button. It is a half-element that can be recessed, emphasizing the simplicity of its installation, which can be done in a few minutes without tools, in PMMA with thermoplastic base, this rocker is designed to offer the best possible response Adverse environments , being its maximum resistance to impacts and scratches, a damp cloth is sufficient to maintain the qualities of its structure from the first day and to avoid oxidation. These characteristics make it one of the most widely installed rockers in large buildings such as hospitals, hotels or schools.
