Frame for 1 element gloss black Simon 100

REF. **10000610-138**

BASIC INFORMATION

DESCRIPTION

This 1 element frame, in black color, is part of the Simon 100 series, is made in a thermoplastic socket and a PMMA frame. It is also known as PMMA and features a black quartz finish. The size of this product is 84x84 millimeters with a depth of 9.7 millimeters. This series is the first collection to integrate the iO Simon system, in which the switches switch from analog to digital. This allows us, through an application, to control the devices you want. The Simon 100 series was created on the occasion of our centenary, a revolutionary series in terms of usability and appearance. It is designed for the sorter because it has more functions in the same space. Simon 100 has three aesthetics: minimum, matrix and vertical. An appearance created in such a way that its functionality is more intuitive and you think you can handle it with your eyes closed. It has subtle finishes and distinguished colors and an elegant appearance.
