

Trim frame for 1 element blue Simon 27

REF. 27954-31

BASIC INFORMATION

DESCRIPTION

Suitable to be recessed, the Simon 27 series has the Trim frame for an element in colour blue. This piece stands out for its high resistance to knocks and scratches, a quality it has thanks to the thermoplastic materials with which it has been manufactured. This makes it the perfect frame for environments with extreme temperatures, such as in certain workplaces. Its universal dimensions of 90x90 mm allow two addresses of assembly, depending on whether the plate is placed horizontally or vertically. Once again, Simon offers its customers the simplest solutions to optimize the decoration of any room, while presenting products with great performance. The decorative frames of the Simon 27 series are a simple and very useful tool to give a touch of colour to a room and contribute to the renovation of the decoration.
