Front face kit for 1 element with 2 gloss white keys Simon 100

REF. **10020103-130**

BASIC INFORMATION

DESCRIPTION

This tilting pushbutton switch from the Simon 100 range allows us a simple installation and a click connection (1 click ®), it is a very practical front face kit composed of a two button element which allows a connection for a power of 10 AX / 250V ~. It offers a secure and trusted system specially designed to be recessed into any surface and made of different strong and durable materials as well as a connection with high quality pin set and actuator. It is supplied in a sober white color, allowing adaptation to any design, perfect to be installed at home and in a professional environment. Allows optimal operation with a temperature range between 5 and 40 ° C and a maximum temperature between -25 and 50 ° C. Like all the kits in the Simon 100 range, they are distinguished by their quality and resistance to use at very competitive prices.
