

Frame square for 2 elements steel Simon 88

REF. 88622-35

BASIC INFORMATION

DESCRIPTION

If we want to change the image of electrical and electronic systems installed in private homes, companies or commercial premises, we have the best ally in the Simon 88 series. In this range stands out the Frame square, for two elements finished in stainless steel, an element that has dimensions of 85 x 156 mm. Suitable for surface-mounted and recess, its installation can be carried out both vertically and horizontally. Also, the direction of installation can be carried out vertically and horizontally. By the features of its innovative design, Simon recommended to use the steel finish for rockers and covers. It has been made with thermoplastic socket and steel finish ZAMAK frame and has a capacity for 1, 2, 3 and 4 elements, all this with competitive price that is unmatched by similar products that we can find in the market.
