

Plate for electronic rotary mechanisms decorative brown Simon 31

REF. 31054-36

BASIC INFORMATION

DESCRIPTION

Simon 31 is a symbol for this company with more than one hundred years of journey. It is a timeless products with a high level of quality. Associated with a great decorative direction with the functionality and simplicity, which makes it integrate without any problem in any project, a house particular or an office. This plate for rotary electronic mechanisms of colour brown combines security, reliability and design with a high level of quality. It has dimensions of 64x65 millimetres. It is the individual version for one element, we find it available in 4 more finishes, although it is recommended, in this case, to choose a frame of colour brown. It is suitable for installation on the surface-mounted or to be flush mounted and is made of thermoplastic material, thanks to its easy installation does not require tools or large knowledge of electronics for its installation.

FINISH

Decorative brown
