

Adjustable continuity connector (unpowered)

REF. 89940430-039

BASIC INFORMATION

DESCRIPTION

All we have seen at any time the disadvantages means to have problems to light the indoor of the rooms and rooms in a private home, commercial premises or the headquarters of a company. Even to avoid these problems, we have the best ally is the of continuity without power adjustable, one of the most complete products of Simon. Suitable for installing on 3-phase rail, its structure has been designed in white colour, another of its great advantages is the great resistance of this connector to knocks and impacts. Moreover, its structure prevent oxidation that occurs in environments with high temperatures and degrees of relative humidity, as well as the deterioration which usually occurs by the daily use. All with a relationship between its excellent quality and its competitive price, a feature that is present in all products and accessories.
