

3-phase adjustable flush mount rail 3 m

REF. 89931338-039

BASIC INFORMATION

DESCRIPTION

One of the most important elements to achieve an ambience suitable for the development of any type of activity is the light. It is the precise moment and in each situation has an incident directly in the results of the activity we carry out. To always have a perfect lighting of interiors, we have the best ally in the Rail 3-phase adjustable for flush mounting with a length of three metres, an accessory designed to be used with different products included in the different series of Simon. Its structure has been made in black finish, as far as its installation is concerned, it is carried out quickly in a comfortable and simple way on a 3-phase rail. The installations of hospitals, educational centres, university campuses and residential, hotels and holiday resorts or spaces for the development of activities sports and leisure have this element in their electrical systems.
