

3-phase adjustable flush mount rail 2 m

REF. 89931230-039

BASIC INFORMATION

DESCRIPTION

The correct connection between all the elements present in the electrical installations is the best safe to ensure that nothing fails at the operation of these. If all is in your site us, we will avoid having accidents in these systems, whose consequences can be very negative in private homes, commercial premises or the headquarters of companies. A good ally for all is in order is the Rail 3-phase adjustable for flush mounting with two metres long. This element has a very innovative design based on avant-garde lines in white finish, its installation, which can be carried out in a comfortable and simple way, without the need for previous knowledge in just a few minutes, must be carried out on a 3-phase rail. Moreover, its competitive price is unrivalled with other similar products that sold other brands in the market today.
