

Interchangeable case for 4 elements frame multicoloured stripes Simon 27 Play

REF. 2700647-801

BASIC INFORMATION

DESCRIPTION

In the Simon 27 Play series we find parts as striking and avant-garde as this interchangeable sleeve for a frame with a multicoloured finish. To give a different and more cheerful touch to that room, simply wager on this interchangeable sleeve for a frame made to fit 4 elements, due to its design, it is ideal for the rooms of the youngest members of the house, although it is also perfect for those who are tired of the same tonalities as always. The cover is made of painted thermoplastic and can recess. It is also 86x306 mm in size and can be installed both vertically and horizontally, for an optimal result, it is best to combine this interchangeable sleeve with rockers and covers, white colour. The effect will be much more satisfying. Its maintenance is also not complicated. Clean the piece with a soft, dry cloth and avoid cleaning products containing chlorine.

FINISH

Multi-colour stripes

MATERIAL

Plastic

COMPATIBILITY

Simon 75, Simon 26, Simon 27 Play and Simon 75* mechanisms (*check compatibility)
