

Back kit for 3 elements with 1 Schuko socket outlet, 1 HDMI + USB connector and 1 single R/TV+SAT socket Simon 100

REF. 10010304-039

BASIC INFORMATION

DESCRIPTION

Suitable for flush mounting, the back kit for three elements with a lateral Schuko socket outlet for ground connection, an HDMI + USB connector and a unique R-TV + SAR socket is one of the most complete products in the Simon 100 series. There are many advantages that have made it a benchmark for similar products manufactured by other competing companies. Designed for a current of 16A for the Schuko format and complying with ITC regulations in the case of the R-TV + SAT socket, it is compatible with a voltage of 250 V. Its installation, which can be conveniently recessed in a universal box, is by cutting (1 click), Schuko, and screw, for R-TV + SAT / HDMI + USB. The quality of the materials with which all the elements have been made translates into a high resistance, being the operation of the rockers of type push-button rocker switch.
