Cover for inductive sockets R / TV + SAT and RJ45 voice and data gloss white Simon 100

REF. **10000072-130**

BASIC INFORMATION

DESCRIPTION

Get the maximum number of solutions in your workplace in your home or workplace, with protection for inductive R-TV and SAT and voice and data plates with RJ45 from the Simon 100 collection, with a perfect balance between design and functionality, the protection for inductive sockets of this range, has some finishes in white tones to give each color room a current for the minimalist style. With an IO humidity sensor reaching up to 95% (without dew), this cover combines innovation and maximum quick connection in a small space, designed for flush installation. The digital features of this collection are related to the safety of your room, thanks to its PMMA components with thermoplastic grip protecting the part in the event of fire and allowing the mechanism to reach maximum temperatures of -25 to 75 degrees. Functionality, innovation and design workstation solutions for a fast, efficient and secure solution.
