IP66 watertight raised floor box kit with 1 schuko socket outlet + 1 RJ45 connector category 6 UTP and sheath

REF. **KGH116URF/74**

BASIC INFORMATION

DESCRIPTION

Simon completely renews its range of watertight floor boxes for indoor and outdoor environments. This is a kit that includes the mechanical closure frame with 1 Schuko and 1 RJ45 Category 6 UTP connector, designed to be integrated into the included basin for installation in a raised floor with cut dimensions of 125 x 125 mm. The product design, combined with its stainless steel frame, ensures a robust, solid, and secure installation, as it can withstand a water jet of 1 kg/cm^2 from any direction, achieving an IP66 protection rating when the lid is closed. It also supports a maximum load of 1500 kg and has an IK08 impact resistance. It maintains an optimal bending radius for high category voice and data connections. Available are our accessory for plug connection with the lid closed, allowing us to keep our connections active with an IP54 (see reference KFA1001), the option to level our box in case of an irregular floor surface (see reference KFA1003), or the ability to concatenate more than one box (see reference KFA1002).
