

Cover for stereo speaker socket white Simon 28

REF. 28082-30

BASIC INFORMATION

DESCRIPTION

Simon 88 series is designed to designs little conventional and risky, due in part to its rockers with shapes rounds that give it a strong personality, complement with its modern frames, both circular or squares, and its finishes in pure precious. Such as this cover for a stereo speaker socket. It is for one element and is only available in white. It is manufactured with thermoset materials and can be combined with both surface and flush-mounted solutions. To clean it, Simon recommends only the use of a soft cloth slightly moistened in soapy water. Avoid any product or cleanign cloth containing chlorine, as this will damage the mechanism. The 88 series is also compatible with the mechanisms of the Simon 77 series of the same range, so that its installation will be quicker and easier.

FINISH

White

COMPATIBILITY

Simon 75 mechanisms
