

Trim frame for 3 elements brown Simon 27

REF. 27951-33

BASIC INFORMATION

DESCRIPTION

With dimensions of 232x90 mm, the Trim frame for three elements in brown included in the Simon 27 series offers the best solutions for renovating the decoration of the rooms of a home or the departments of a company. Designed to offer the best performance in environments with high temperatures or humidity saturation without losing an iota of the qualities of its structure, this frame stands out for its resistance to knocks or scratches. This is a piece made of thermoplastic components that is suitable to be recessed in a universal box. His installation? Does not need tools or professional knowledge. Another advantage is its maintenance, since a damp cloth is sufficient to maintain its structure as the first day. This frame consists of six modules and allows two addresses of assembly, depending on whether the plate is placed horizontally or vertically.
