

Trim frame for 3 elements yellow Simon 27

REF. 27958-33

BASIC INFORMATION

DESCRIPTION

This trim frame is part of the Simon 27 range, has dimensions of 230 x 90 millimetres and is ideal for mechanisms that supplied energy to a total of three elements. Its installation is carried out by means of recessed, so that it is very easy to install. It also allows the user to do it in a horizontal or vertical position, depending on the tastes and needs. Simon has created a series with a wide range of finishes and colours to adapt to the new trends times and to the different aesthetic. In this sense, this frame is in a striking and original colour yellow that endow of joy to the room of the home, office, or place where it is placed. The manufacturing material of the frame is thermoplastic, so that it is a product of great resistance to temperatures very high or lower, in addition to survive very well the external harmful actions due to its hardness is required.
