Plate for telephone sockets with RJ11 and RJ12 connectors white Simon 28

REF. **28062-30**

BASIC INFORMATION

DESCRIPTION

This plate of the series Simon 28 is designed for telephone sockets with RJ11 and RJ12 connectors, the Simon products are very versatile and, if the design allows it, in many cases, offering different options for installation, responding to the tastes of the user or to the needs of the aesthetic or anzeigen where you place. In this case, the installation of the plate, it is very easy and can be installed either by recessed or directly on the surface-mounted. Also, Simon 28, the plate is presented in a traditional white colour, which ensures perfect integration where it is placed. Its thermostable material gives it a high resistance to temperatures ranging from -25 to + 50 degrees centigrade. Also gives Additional protection against knocks or scratches. Its maintenance and cleaning is very simple and it is only necessary to use a soft, slightly damp cloth above. You can use soapy water for cleaning, but it is not advisable to any other type of cleaning product additions and much less if it is of type abrasive and contain chlorine, as they could damage the product.
