Frame for 2 elements white Simon 75

REF. **75620-30**

BASIC INFORMATION

DESCRIPTION

The frame of the Simon 75 series, finished in white, is one of the most universal designs and, at the same time good-looking. Its ease of combination with different parts pieces, as well as with rockers of multiple varieties, provides an extra basic in the design. It is made up of 2 elements, with capacity for up to four depending on the model. Its are measures 88x159mm. Its versatility to their assembly, it can be used in surface-mounted or in any universal box to be recessed, in the same way that can be guide in vertical and horizontal, according to the needs of the space. The manufacturing material is thermoplastic, highly resistant to heat and hardness. It has a simple maintenance in which you must use a soft cloth slightly moistened in soapy water, it is not advisable to use cloths and / or abrasive cleaners containing chlorine.
