

Single rocker with light symbol for push button grey Simon 75

REF. 75018-35

BASIC INFORMATION

DESCRIPTION

Grey in colour, we have the individual rocker with light symbol for push-button switch. It belongs to the Simon 75 series and has 6 different finishes, it is advisable, when choosing the frame, to choose one with the same colour of the selected rocker. It can be installed both on the surface-mounted and recessed. The most common temperature ranges of the individual rocker with light symbol are 5 to 40° with a limit ranging from -25 to 50°. This type of rocker corresponds to the regulation regulations. The main manufacturing material is thermostable with a plastic grey finish. The individual rocker with light symbol is of individual version, it does not contain modules, but an element. This model includes light symbol but does not include signaling function. It is recommended for the correct maintenance of the rocker with viewfinder and engraving to use a soft cloth slightly moistened in soapy water to clean it properly.
