Frame for 2 ivory elements Simon 82 Detail Original

REF. **8200620-031**

BASIC INFORMATION

DESCRIPTION

Simon has a commitment to quality and design, but also of sustainability with the environment. This initiative allows us to consume less energy, something that is thanked for both the planet as for our pocket. One of the most avant-garde series of Simon, as it is the 82 Detail series has functions such as the control of lighting that allows us to save a 10% in the consumption and up to 40% in hotels or large all. We are looking at a frame for 2 elements made of thermoplastic with a finish in ivory colour, its dimensions are 93 x 164 millimetres and is suitable both for surface and flush mounting. It is recommended the ivory finish for rockers and covers. A collection inspired by attention to detail, stylish and that stands out for its design. The socket of the frame stands out, giving us the feeling of buoyancy.

FINISH

Ivory
