Interchangeable case for 2 elements frame translucent grey Simon 27 Play

REF. **2700627-112**

BASIC INFORMATION

DESCRIPTION

A simple and efficient to give a new service to its mechanisms are the interchangeable covers for frames. In the range Colour, of the Simon 27 Play, we find this model with a translucent grey finish, with a design stylish and discreet, its function is to provide a new look to its mechanisms without the need for new facilities. In the version for two elements, its dimensions are 86x164mm. Although the model has capacity for up to four elements, if necessary. Their assembly, you can perform either in frames in surface-mounted, such as those that are installed in a universal flush mounted box, both vertically and horizontally, according to the needs of the place. For this reason, it is a model highly adaptable to the spaces. Manufactured in thermoplastic, it is highly resistant to heat and to the knocks. Due to its design, with the finished in grey colour, it is recommended that the use of rockers and covers is done in a finish in colour transparent. And so stay in perfect harmony with the model. For your care, it is necessary to, only, the use of a soft cloth slightly moistened with soapy water.
