# Frame for 2 cold aluminium elements Simon 82 Detail Original white base

REF. **8200620-093**

BASIC INFORMATION

DESCRIPTION

This product is of the Simon 82 series and, specifically in the Detail Original. It is a frame suitable for mechanisms that supplied energy to two electrical devices or elements. It measures 93 x 164 millimetres. Its installation is very simple, as it is carried out by means of recessed or on the surface-mounted. This frame stands out for its precise finished in cold aluminium colour of socket of white. This combination of colours gives it modernity and gives a touch futuristic in appearance, so it is perfect for rooms with this decorative style. The manufacturing materials are based on the thermoplastic, being the frame in metallized thermoplastic. This gives great resistance to the product, as this material of high quality allows it to withstand high or very low temperatures without losing the frame nothing of functionality. Its maintenance is also very simple and consists of passing a soft cloth slightly dampened with soap water. It does not need of any other products.

FINISH

Aluminium/White

MATERIAL

Plastic
