IP66 tray link accesory for floor boxes in concrete

REF. **KFA1002**

BASIC INFORMATION

DESCRIPTION

A waterproof floor box for linking IP66 cubicles on pavement floor using the KFA1002 accessory within the Simon K45 series. Made of metal, it offers the perfect design for an elegant space, with maximum safety, connectivity, and resistance. If more connection points are needed, this accessory allows the union of cubicles on any of its four sides. Thanks to its design, it enables the grouping of cubicles within their perimeter, providing additional connection points. Its metal composition with aluminum finishes allows it to achieve an installation temperature range of -25°C to 60°C, which can be exceeded in construction.

COMPATIBILITY

K45 Solutions

ETIM CLASS

EC002420

TECHNICAL INFORMATION

IP RATING
IP66

KIT AVAILABILITY
Yes

MAINTENANCE
Clean with a soft, dry cloth. Do not use abrasive cloths or cleaning products that contain chlorine.

INSTALLATION AND MAINTENANCE

REMOVAL OF COMPONENTS
Only with tool

EXTINGUISHING (ºC)
+650 ºC (according to standard IEC 60670)

REMOVAL OF THE FRAME
Only with tool
