

Cover for voice and data flat plate with dust cover for 1 AMP® RJ45 connector graphite Simon 82 Centralisations

REF. 82585-68

BASIC INFORMATION

DESCRIPTION

Cover flat plate for voice and data, finished in graphite colour (but it is available in 5 different finishes, of the Simon 82 series, Centralizations and that is used for 1 RJ45 connector AMP ®. This cover for 1 element, and with dust cover, it can be installed by flush mounted and also in surface-mounted. Its maintenance is very simple, as it will only need to wipe it with a soft cloth and slightly moistened in soapy water, without having to use under any circumstances abrasive cleaners or cloths that contain chlorine in their formulation, as they could make this cover is damaged and not fulfill with its function. Simon 82 Centralisations is a range of mechanisms that stands out for offering many more functions in less space. These functions are: Timing and clocks, sound, centralisation of blinds, adjustment of lighting, programming of temperature). Also, this series we can highlight that it can be installed in a multitude of spaces such as: Control stations and / or connection, work stations, furnishings, kitchens, restaurants, retail, offices, bed headboards and hotels, among others.
