Mounting frame 1 element black Simon 270

REF. **20001910-039**

BASIC INFORMATION

DESCRIPTION

One-element mounting frame made of high-strength, highly rigid painted steel, designed for a precise and secure fit with Simon 270 series mechanisms. Its new version includes improvements that make installation easier and optimise the aesthetic finish, such as less abrasive edges and a black finish that prevents visible metallic reflections between the frame and the rocker. Easy to install, it can be positioned vertically or horizontally. For proper maintenance, installation is recommended in environments with an operating temperature of 5 to 40 °C and a storage temperature of -25 to 50 °C. Also available for two, three and up to four elements.

MATERIAL

Metal

ETIM CLASS

EC002948

TECHNICAL INFORMATION

AVAILABLE MARKET
CE

IP RATING
IP20
