Back kit for 1 intermediate push button Simon 100

REF. **10010102-039**

BASIC INFORMATION

DESCRIPTION

Simon 100 series rear panel kit for one element and with 1 push button crossing switch. The Simon 100 series commemorates the centenary of the signature. It is a revolutionary collection in terms of usability and appearance . With the elements of this series you will be able to energize spaces and create experiences suitable for every lifestyle. Among the things that stand out is this series 100 by Simon is due to the fact that it presented its first switch with a mechanism push button, designed to be used with closed eyes. In addition, the Simon 100 series is designed to facilitate interaction between users. It is therefore the most intuitive, simplest and most comfortable to use. Its current is 10A and its voltage is approximately 250 V. Its type of clamping is by cut-off (1 click). The installation is recessed and operates in a temperature range of 5 to 40 ° C, although it can be used in public places at maximum temperatures of -25 to 50 ° C. "

COMPATIBILITY

Front Kit Simon 100
