

Telephone socket with 4 pins RJ11 grey

REF. 75480-33

BASIC INFORMATION

DESCRIPTION

The price and quality are not at odds. A clear example of this is the telephone socket with 4 RJ11 pins of the Simon 75 series, available in aluminium colour in individual version, which supports a wire cross-section of 0.3 to 0.5 mm and a wire stripping of 12 mm, sold in boxes of 10 units. Its metal components with halogen-free insulation and thermoplastic trim with which it has been made comply with the regulation TIA 568 C. 2. It also, this telephone socket, which is the typology Category C, has a number of connections of four and a number of wires of two. All these features are included in this telephone socket at the best market price, a situation that has made it one of the most demanded products today.
