Cover with viewer for mechanical or electronic card switch white Simon 82

REF. **82078-60**

BASIC INFORMATION

DESCRIPTION

Cover with viewer for mechanical or electronic card switch, finished in white colour and belonging to the Simon 82 series. The Simon 82 series is compatible with the Simon 77 series mechanism, which is a series that allows you to position, place the cables without having to peel or braid and, in addition, you will save time in the installation, since you will not need any additional tools to place it. This cover with 1 element and is available in 6 finishes and it is always recommended to choose the frame with the same baseboard colour of the selected rocker. It measures 55x55 mm and complies with the regulation European UNE-EN 61058-1: 2004 + A2: 2008. It is suitable for surface or flush mounting in places with a temperature of between 5 and 40ºC, although it can withstand a temperature end of -25 to 50ºC, approximately. Manufactured in thermoplastic, it is a cover that is very easy to clean, as you will only need to use a soft cloth slightly moistened in soapy water.
