

Single rocker with bell symbol for push button white Simon 75

REF. 75017-33

BASIC INFORMATION

DESCRIPTION

This is an individual rocker with bell symbol for push-button switch. Of the Simon 75 series, has 6 different finishes, it is recommended to choose frames with the same colour of the selected rocker. It can be installed in 2 different ways, surface mounting or flush mounting. The most common temperature ranges of the individual rocker with light symbol are 5 to 40° with a limit ranging from -25 to 50°. This type of rocker applies the current regulation. The main manufacturing material is thermostable with a matt aluminium and plastic finish. The rocker with viewer and bell engraving is of individual version, it also contains an element, but not modules. This model does not include the signaling function, in addition this model of rocker includes the bell engraving. It is recommended for the correct maintenance of the rocker with viewfinder and engraving to use a soft cloth slightly moistened in soapy water to clean it properly.
