Front face kit for 2 elements with 2 gloss white keys Simon 100

REF. **10020201-130**

BASIC INFORMATION

DESCRIPTION

In addition to presenting a modern and decorative appearance, the Simon 100 series products have been specially designed to be intuitive and easy to install in a very short time. They are therefore simple, comfortable and intuitive mechanisms that do not require any tools for their installation. The front panel kit for 2 elements with 2 keys and in white Simon 100 finish is suitable for installations up to 10 AX and up to 250 V. One of the keys to its ease of installation is its click connection type. (1 click ®), which is incredibly comfortable, fast and simple as there is no need to strip the cables. This product is suitable to be recessed and has a push button key switch type operation, so that the keys always stay in the same position, contributing to a better appearance of the product, this kit is a very practical and functional solution , perfect for all types of projects.
