

Voice and data angled plate with dust cover for 1 element for 1 RJ45 connector black Simon K45

REF. K80/14

BASIC INFORMATION

DESCRIPTION

Plate of voice and data tilted plate with dust shutter of 1 element for 1 RJ45 connector, with a black finish, the piece is included in the Simon K45 series. It measures 45x45 mm and, in addition, it has a depth of 25 mm. It is an article that, in compliance with the regulation, is suitable for surface and flush mounting and presents an exceptional resistance to high temperatures. The plate is made of halogen-free thermoplastic, a material that, in fact, guarantees no flame spread in case of fire. The article can be combined perfectly in vertical enclosures, such as columns, Teleblock, channels mechanism-holders. In this case, would have to use the 90° positioner (reference K66) to keep the plate has vertically. The plates of the collection Simon K45 is characterized by its compatibility 100% with any connector on the market.
