

Cover with viewer for mechanical or electronic card switch white Simon 88

REF. 88078-30

BASIC INFORMATION

DESCRIPTION

Lids on electrical systems are the best way to prevent accidents that can have negative consequences on the operation of the same. In the devices that are activated by card, most sensitive than the others, this protection is even more important. To avoid problems, you can trust the cover with viewer for mechanical or electronic card switch in white colour of the Simon 88 series. The cover includes engraved indicator light and has dimensions of Ø 68.3 mm with purely neutral lines that matches all types of environments, available in three different finishes, so it is recommended to choose a frame with the same colour of the cover selected, it is manufactured with thermoset materials with components that enable a high degree of resistance to all kinds of impacts or knocks, to deterioration over time and oxidation.
