Double rocker for switches white Simon 27 Scudo

REF. **2705026-030**

BASIC INFORMATION

DESCRIPTION

This double rocker is specially designed for control mechanisms and is part of the Simon 27 Scudo series. Its installation is very simple and can be carried out by means of recessed. Its thermoplastic material will ensures a long service life, as this component makes the product has an extra resistance to high and very low temperatures. It also gives it a hardness additional that protects against knocks or scratches or external harmful actions. The rocker comes in white finish, a colour that will make you incorporate into everyday easily in any room or place where it is. However, this product is available in two finishes, so it is recommended to use a frame of the same colour as the rocker to achieve a full harmony appearance. Its maintenance is very simple and it is only necessary to use a soft cloth and slightly moistened in water with soap. It is not necessary to use any additional another product.
