# Single rocker for blinds mechanism with 3 positions (up, down and stop) ivory Simon 75

REF. **75033-31**

## BASIC INFORMATION

### DESCRIPTION

Individual rocker in ivory colour, of the series Simon 75, for roller shutter mechanism. With 3 positions (up, down and stop) and has 1 element. This rocker is suitable both for surface and flush mounting and can be installed, perfectly, in places with a temperature of between 5 and 40ºC, approximately, although it can withstand extreme temperatures (between -25 to 50ºC, more or less). Complies with the regulation UNE-EN 60669-1: 2002 + A1: 2003 + A2: 2009 and is made of thermoset plastic, a material very easy to maintain, because only vas to have to clean it with a soft cloth slightly moistened in soapy water, forgetting of having to use abrasive cloths and / or abrasive cleaners containing chlorine. A of things that stands out of the Simon 75 series (and the multiple colour combinations offered by) is that the intermediate piece is very playful because, thanks to its design, the rockers can be attached to the square cavity of the frames of 2,3 or 4 elements, which can be mounted, either, in vertical or horizontal position.

### FINISH

Ivory

### MATERIAL

Thermostable

### PACKAGING CONTENTS

Single rocker and fastening bracket

### SYMBOL

Blinds Up-Down-Stop

### COMPATIBILITY

Simon 75 mechanisms

### ETIM CLASS

EC000011
