

# Surface-mount base for 2 elements vertical Simon 44 Aqua

REF. 4400763-035

## BASIC INFORMATION

### DESCRIPTION

At Simon, we have this surface-mounted socket for two elements of the range Simon 44 Aqua. It is made of thermoplastic material of high quality, as well as the other components of this series. In this sense, the product used for the design of the model Simon 44 Aqua is based on plastic. But it is not common but plastic material to which it has equipped with the ability to withstand high temperatures of the ordinary, by betting on the security in the final result. Its structure is 75 x 170 millimetres and 33 millimetres of depth. This socket is especially suitable for installation in vertical position in any room, and can be supplied current to between two and three elements. Another added value of the product is that it does not require the use of frames to trims, and that its cleaning and maintenance is really simple. With just wipe it with a cloth slightly dampened with soapy water for the surface-mounted, it will look like new.
