

Back kit for 2 Schuko socket outlets Simon 100

REF. 10010202-039

BASIC INFORMATION

DESCRIPTION

This kit is fundamental rear part of the installation of the mechanisms of the Simon brand. This product, in particular is part of the Simon 100 range and is designed to provide electrical power to two elements of up to 16 A and 250 volts. Therefore, the back kit has two socket outlets SCHUCKO. Their start-up is very simple and is carried out by means of click terminal connection. It is a device suitable for flush mounting in the wall or surface-mounted. To complete the mechanism will be necessary to purchase a front kit of the brand Simon compatible with this kit back. Both products stand out for their high quality materials that contribute to increase the security of the place where it is to locate, as they are self-extinguishing and are designed to do not propagate the spread in case of fire and reduce the toxicity of smoke. The range of mechanisms Simon 100 is characterized by its high functionality unit to an innovative and modern appearance based on simple lines. Also, it also stands out for its easy operation.
