

RJ12 telephone socket with 6 contacts white Simon 27 Play

REF. 27481-35

BASIC INFORMATION

DESCRIPTION

This telephone socket with six RJ12 pins white in colour and belongs to the Simon 27 Play series, you can count on six telephone connections at the same time, it belongs to a series of mechanisms recessed, the Simon 27 Play series stands out for a design of curved lines mixed with neutral lines joined together. One of the premises that the Simon 27 Play series is personalization, it is vitally important that the design adapts to the needs of each client and that is what Simon achieves, allowing the customization of colors for rockers and covers and other different combinations with colored frames, so that the components can have infinite combinations to adapt to each client. Its installation can be carried out in a universal box recessed or in a baseboard surface-mounted, always with ease, Simon offers in its range of products, the type of terminal connection is carried out by means of a screw and works by insertion. Also, it adapts to the regulation TIA 568 C. 2.
