

Single rocker for switches matt champagne Simon 82 Centralisations

REF. 82010-54

BASIC INFORMATION

DESCRIPTION

Individual version rocker and an element, especially for control mechanisms Simon. It is part of the Simon 82 series Centralizations, specifically to the catalog of rockers and covers of the brand, this product is available in a stylish finish in matte champagne colour, which makes the rocker in the perfect solution to give a great appearance to the space. You can find these rockers Simon in a total of five finishes, as it is necessary to choose a frame that escort the product, as a recommendation is to select it in the same finish of the baseboard of the rocker in question. In this case, a matte champagne frame Simon in colour is ideal. The rocker does not include or signaling function or any kind of engraving. For its installation you just need to place it in optimum surface-mounted or flush mounted, according to the needs of each user. The maintenance of the rocker Simon is simple, as it will only need to clean it with a little soapy water in a very soft cloth.
