

# Double rocker for blinds mechanism with security latching white Simon 28

REF. 28028-30

## BASIC INFORMATION

### DESCRIPTION

This double rocker is designed for roller shutter mechanisms and also includes latching of security. It is part of the series of Simon products 28. The rocker is very simple by recessing and includes an engraving of the up / down blinds, which will much easier and user-friendly its operation. Simon products comply perfectly the function for which were designed, but also decorative elements is converted to the room in which it is located. Therefore, Simon offers multiple possibilities in terms of colors, finishes and combinations. On this occasion, the rocker is a traditional white colour, for the lovers of the classic, a colour that ensures perfect integration in any room, whatever its appearance. The rocker is made from thermoset material and that is why it has a high resistance to possible knocks or scratches, as well as to temperatures ranging from los- 25 up to 50 degrees centigrade.

### FINISH
